Full Stack Developer Intern

Jun 2024 – Sep 2024

Crack-Interview – Mississauga, ON

- Created full-stack modules using the MERN stack MongoDB, Express, React, Node.js implementing user registration, authentication, profile management, and real-time data.
- Resolved 30+ bugs, reducing reported issues by 40%, and significantly improving application stability and user experience.
- Designed and integrated REST APIs with React components, improving data flow, and delivering responsive, user-friendly features.

Frontend Developer Intern 2023 – May 2024

Dec

Interact Health Pro – Mississauga, ON

- Optimized application performance by implementing lazy loading, reducing unnecessary API requests, and improving page response times by 30%.
- Mentored 2 junior developers through code reviews and technical guidance while actively participating in sprint planning, stand-ups, and reviews to improve team collaboration.
- Implemented responsive, cross-browser React interfaces and integrated REST APIs to deliver a seamless user experience.

Self-Learning & Open-Source Contributor 2021 – Nov 2023

Jan

- Contributed to open-source projects on GitHub and completed 10+ personal projects to strengthen full-stack development skills.
- Developed responsive websites for small businesses with React.js, HTML5, and Bootstrap, improving their online presence and customer engagement.
- Created reusable React components, consumed REST APIs, and used Git for version control while following clean code and responsive design best practices.

PROJECTS

Wikipedia Search

Jan 2026 – Feb 2026

<https://github.com/mismail115/Wikipedia-Search>

- Built a Wikipedia search application using React.js and the Wikipedia Search API, implementing asynchronous API requests and dynamic search result rendering.
- Optimized API calls using the Fetch API and improved DOM updates through efficient state management in React to deliver fast, interactive search experiences.

Touch Book

Feb 2026 – Mar 2026

<https://github.com/mismail115/touchBook>

- Designed a social networking web application using the MERN stack, implementing secure user authentication and content management features.
- Developed reusable UI components using React.js and Bootstrap to improve usability, maintain consistency, and enhance user engagement.

TECHNICAL SKILLS

Programming Languages:

JavaScript (ES6+), Java, C#, Python, HTML5, CSS3,

Frontend:

React.js, Redux, Tailwind CSS, Bootstrap

Backend:

Node.js, Express.js, RESTful APIs

Databases:

MongoDB, MySQL, PostgreSQL, SQL Server

Cloud and AI:

IBM Cognos Analytics, IBM Cloud, Azure AI Foundry

EDUCATION & CERTIFICATIONS

Junior Data Analyst Program

Jun 2026 -

Expected Sep 2026

NPower Canada | Toronto, ON

- IBM Data Analyst Professional Certificate
- Microsoft Azure AI900 Professional Certificate

Cloud computing & Machine Learning-

Jan 2023 - Apr 2023

Seneca College |ON

Post-Graduate Diploma in Software Testing

Aug 2022

Fanshawe College| ON

Bachelor Of Commerce

Nov 2001

Ain Shams University | Cairo, Egypt
